

Why Should Classroom Teachers Use POW-Pak?

It is a part of our district strategic plan to communicate with our community's stakeholders. You can use the blog feature for comments, post your classroom schedules, upload assignments, & display a homework calendar.

It can be used as part of your goal-setting plan.

It is a great tool to involve students in your classroom. Once you log in, students can update your calendar daily or weekly. You can also post class pictures & display student work.
