

# Connect Four

1. Players begin the game by flipping a coin.
2. The player winning the flip decides if they would like to go first or pass.
3. The player who starts the game will answer one of the math problems.
4. If the player answers the question he/she will place their marker in one of the circles.
5. If they do not answer the question correctly the other player has the chance to answer the problem. If the other player answers the question correctly they will place their marker in a circle and continue with their turn.
6. Winner is determined by the person who connects four circles in a row.
